

HEATSEALING PRESS

Sb 200 Ro is a sealing machine with two rotating tables and it is completely electric. Thanks to its reduced dimensions and a great quietness, the press can be placed in any kind of setting.

Technical features

work surface max. dimensions	350 x 300 mm
work surfaces	2
effective work-cycle time	~5/sec.
max. height of the object to be sealed	95 mm
closing power	1.000 kg
sealing head power	1 kw
engine power	075 kw
nominal voltage	220 v/1f 50 Hz
drawer activation	manuale
dimensions (h x w x d)	500 x 700 x 900 mm
weight	90 kg
sealing head throw	15 mm
sealing time	0÷30 sec.
